## Management's Discussion and Analysis

The following commentary is a review of the consolidated financial condition and results of operations of Farm Credit West, ACA and its subsidiaries Farm Credit West, FLCA and Farm Credit West, PCA (Farm Credit West or Association). These comments should be read in conjunction with the unaudited first quarter 2021 consolidated financial statements and related notes included in this report, as well as the 2020 Annual Report to Shareholders. Shareholders may obtain copies of the Quarterly or Annual Report to Shareholders free of charge by calling our corporate headquarters at 916-780-1166, by writing to Farm Credit West, 3755 Atherton Road, Rocklin, CA 95765, or by accessing our website at [www.farmcreditwest.com](http://www.farmcreditwest.com). Additionally, the financial condition and results of operations of CoBank, ACB (CoBank), our funding bank, may materially affect the risk associated with shareholder investments in Farm Credit West. Shareholders of Farm Credit West may obtain copies of CoBank's Quarterly or Annual Report to Shareholders free of charge by calling 916-780-1166, by writing to Farm Credit West, 3755 Atherton Road, CA, 95765, or by accessing CoBank's website at [www.cobank.com](http://www.cobank.com).

### Loan and Lease Volume

Loan and lease volume (net of sold loan and lease participations) was \$11.4 billion at March 31, 2021, a decrease of \$248.5 million since December 31, 2020. The net decrease was primarily due to seasonal decreases of \$346.5 million in production and intermediate term volume, \$15.0 million in real estate mortgage volume and \$1.1 million in direct financing lease volume. Partially offsetting these decreases were increases of \$87.5 million in agribusiness volume and \$26.6 million in rural infrastructure loan volume.

In addition to the \$11.4 billion of loan and lease volume reported on our balance sheet at March 31, 2021, we serviced loans and leases totaling \$3.1 billion held by other institutions.

### Loan Portfolio Quality

As shown in the following table, our loan quality statistics improved by 0.3% during the first three months of 2021 due to a decrease in substandard loan volume.

	March 31, 2021	December 31, 2020	December 31, 2019
Nonadversely classified	95.9%	95.6%	95.4%
Adversely classified	4.1%	4.4%	4.6%

### Economic Overview and Commodities

Under normal conditions, agriculture in the area served by Farm Credit West is highly diversified and generally less susceptible to financial volatility than other areas of the U.S. because of the diversity in commodities produced.

The Coronavirus pandemic (COVID-19) caused worldwide disruptions in financial markets, numerous business sectors and human capital.

Due to COVID-19, Farm Credit West transitioned most staff to remote working arrangements in March 2020. As of March 2021, all Farm Credit West California and Arizona offices remain open and continue to provide essential services to customers with a limited number of staff and reduced business hours to ensure borrower and staff safety.

In response to COVID-19, Congress passed the Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act") in March 2020. A provision of the CARES Act created the Paycheck Protection Program (PPP) which provides forgivable loans to small businesses including agricultural producers. This program is administered through, and the loans are guaranteed by, the Small Business Administration (SBA). The SBA began accepting applications for a second round of PPP loans in January 2021. Through March 31, 2021, Farm Credit West has processed and provided funding for approximately \$87 million in PPP loans to borrowers.

The long-term impacts of COVID-19 on agriculture and Farm Credit West borrowers are still unknown. However, there was a reduction in the exportation of some agricultural products we finance. The tree nut, table grape and dairy industries, which are significant exposures in our portfolio, are very dependent on export markets. Tree nuts include almonds, pistachios, walnuts and pecans. Due to the closing of export markets in 2020, certain types of tree nuts experienced market decline. COVID-19 caused a significant decline in the prices for dairy and other protein markets in early 2020, but prices since that time have rebounded to profitable levels for many dairy operations. Uncertainties brought about by the COVID-19 pandemic could continue to cause further stress to those industries dependent on export markets.

### Nonearning Assets

Nonearning assets (nonaccrual loan volume plus other property owned) totaled \$92.3 million at March 31, 2021, a decrease from \$99.6 million at December 31, 2020. Nonaccrual loan volume decreased \$7.3 million to \$92.3 million due to net repayments during the first three months of 2021. Other property owned balances remained unchanged during the first quarter.

### Allowance for Loan and Lease Losses

Our allowance for loan losses totaled \$76.8 million (0.67% of loan principal and interest) at March 31, 2021, a decrease of \$0.8 million since December 31, 2020. The general allowance analysis took into account the likelihood of possible losses due to COVID-19's impact on the economy, agriculture and borrowers. The allowance is our best estimate of the amount of probable losses existing in, and inherent in, our loan portfolio as of the balance sheet date.

## Management's Discussion and Analysis

We determine the allowance based on a regular evaluation of the loan portfolio, which generally considers recent historic charge-off experience adjusted for relevant factors. There were less than \$0.1 million in recoveries during the first quarter of the year and the provision for loan loss reversal totaled \$0.8 million.

### Credit Risk Management

To help manage and diversify credit risk, our credit risk management framework includes selling loan participation interests, limiting our "hold" positions to amounts below the legal lending limits, and prudently establishing lending limits at the borrower level based on asset quality. Additionally, we obtain credit guarantees with the Federal Agricultural Mortgage Corporation (Farmer Mac) and certain U.S. government agencies, primarily the Farm Services Agency (FSA), on a small portion of our loan portfolio. The PPP loans we funded through the provisions of the CARES Act, are fully guaranteed by the SBA.

### Funding and Liquidity

Although financial markets and interest rates reacted dramatically to the COVID-19 pandemic, Farm Credit West was able to continue to offer our full line of product offerings to our borrowers. We closely monitor liquidity available to us from CoBank, our funding bank, and in addition we have established direct access to our own liquidity to ensure that we have funding available to meet our customer needs.

### Investment Securities

Farm Credit West holds investment securities primarily to maintain a liquidity reserve and to assist with interest rate risk management. In accordance with Board-approved policies, Farm Credit West purchases only high credit quality investment securities with the goal of ensuring that the investment portfolio is readily marketable and available to serve as a source of liquidity in the event of disruption to Farm Credit West's normal funding sources. See Note 3 for additional information.

### Net Income

Net income for the three months ended March 31, 2021 was \$83.0 million with an annualized rate of return on average assets (ROA) of 2.71%. Net income for the first three months of 2020 was \$78.9 million with an ROA of 2.81%. Following are the key changes in net income for the same period year-over-year:

- ❖ Net interest income increased by \$0.9 million to \$81.4 million during the first three months of 2021 compared to the same period last year. The increase was mainly due to \$8.4 million in favorable volume variances offset by an unfavorable interest rate variance of \$5.0 million and a \$2.5 million reduction in nonaccrual interest income recognized.

- ❖ Total noninterest income increased by \$1.5 million to \$27.4 million primarily due to a \$4.0 million increase in patronage from other Farm Credit Institutions and a \$0.6 million reduction in losses on the buyback of debt. The increase was partially offset due to no FCSIC refund received in 2021 compared to a \$2.2 million FCSIC refund received in 2020 and a \$1.1 million decrease in loan fees.
- ❖ Provision for loan losses decreased by \$2.7 million to a negative provision of \$0.8 million during the first three months of 2021 compared to the same period in 2020.

Offsetting the above positive net income variances:

- ❖ Total noninterest expense increased by \$1.0 million to \$26.6 million during the first three months of 2021 compared to the same period in 2020. The change was due primarily to an increase in FCSIC insurance premiums of \$1.8 million. Partially offsetting this increase were decreases of \$0.4 million in Public and Member Relations, \$0.2 million in Information Technology and \$0.2 million in Travel expenses.

### Preferred Stock

Farm Credit West's preferred stock program was established as a means of adding value to the customer relationship and to provide the Association with capital to fund lending activity. Changes in regulatory capital requirements have diminished the capital value of this program. At March 31, 2021, the preferred stock balance was \$314.1 million, a decrease of \$39.3 million from December 31, 2020. Effective November 1, 2020, Farm Credit West elected to suspend new issuances into the preferred stock program.

### Future Payment Funds

At March 31, 2021, the customer-owned future payment funds increased by \$54.7 million to \$514.3 million compared to \$459.6 million at December 31, 2020. Future payment funds represent voluntary advance conditional payments and are an interest-bearing funding source for the Association.

### Capital

In the past three months, total members' equity increased \$43.4 million to \$2.4 billion due to net income of \$83.0 million, partially offset by a decrease in preferred stock of \$39.3 million.

## Notes to Consolidated Financial Statements

### Note 1 – Organization and Operations

A description of the organization and operations of Farm Credit West, ACA and its subsidiaries (Farm Credit West or Association), the significant accounting policies followed, and the financial condition and results of operations as of and for the year ended December 31, 2020, are contained in the 2020 Farm Credit West Annual Report to Shareholders. These unaudited first quarter 2021 financial statements should be read in conjunction with the 2020 Annual Report to Shareholders.

The accompanying unaudited financial statements contain all adjustments necessary for a fair presentation of the Association's interim financial condition and results of operations. Farm Credit West's accounting and reporting policies conform to accounting principles generally accepted in the United States of America (GAAP) and prevailing practices within the banking industry. Certain amounts in prior years' consolidated financial statements have been reclassified to conform to current year's financial statement presentation.

### Recently Issued Accounting Pronouncements

In March 2020, the Financial Accounting Standards Board (FASB) issued guidance entitled "Facilitation of the Effects of Reference Rate Reform on Financial Reporting." The guidance provides optional expedients and exceptions for applying GAAP to contracts, hedging relationships and other transactions affected by reference rate reform. The guidance simplifies the accounting evaluation of contract modifications that replace a reference rate affected by reference rate reform and contemporaneous modifications of other contracts related to the replacement of the reference rate. With respect to hedge accounting, the guidance allows amendment of formal designation and documentation of hedging relationships in certain circumstances as a result of reference rate reform and provides additional expedients for different types of hedges, if certain criteria are met. The optional amendments are effective as of March 12, 2020 through December 31, 2022. Farm Credit West applied the optional expedients in the first quarter of 2021. The impact of adoption was not material to the institution's financial condition or its results of operations.

In June 2016, the FASB issued guidance entitled "Measurement of Credit Losses on Financial Instruments." The guidance replaces the current incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to determine credit loss estimates. Credit losses relating to available-for-sale securities would also be recorded through an allowance for credit losses. For public business entities that are not U.S. Securities and Exchange Commission filers, this guidance was to become effective for interim and annual periods beginning after December 15, 2020, with early application

permitted. In November 2019, the FASB issued an update that amends the mandatory effective date for this guidance for certain institutions. The change resulted from a change in the effective date philosophy that extends and simplifies the adoption by staggering the dates between large public entities and other entities. As a result of the change, the new credit loss standard, for those institutions qualifying for the delay, becomes effective for interim and annual reporting periods beginning after December 15, 2022, with early adoption permitted. The Association qualifies for the delay in the adoption date. The Association continues to evaluate the impact of adoption on its financial condition and results of operations.

### Note 2 – Loans and Allowance for Loan and Lease Losses

A summary of loan principal outstanding follows.

<i>(in thousands)</i>	<b>March 31, 2021</b>	December 31, 2020
Real estate mortgage loans	<b>\$ 6,771,521</b>	\$ 6,786,534

Rural residential loans	<b>89</b>	89
Total loans	<b><u>\$ 11,354,689</u></b>	<b><u>\$ 11,603,195</u></b>

At March 31, 2021, Farm Credit West had \$3.9 billion in unused commitments to extend credit to borrowers, net of participations sold, and \$36.2 million in stand-by-letters of credit.

Farm Credit West's leasing operations consist principally of the lease financing of various types of agricultural equipment. Most Farm Credit West leases are classified as direct financing leases, the financial components of which are detailed in the following table. Farm Credit West's financing leases typically expire or mature within five years.

## Notes to Consolidated Financial Statements

The following table summarizes the components of the net investment in direct financing leases included as Loans and leases in the Consolidated Balance Sheets.

<i>(in thousands)</i>	March 31, 2021	December 31, 2020

A restructuring of a loan constitutes a troubled debt restructuring (TDR) if, for economic or legal reasons related to the debtor's financial difficulties, the Association grants a concession to the debtor that it would not otherwise consider. During the first three months of 2021, there were no TDR modifications.

There were no TDRs that occurred within the previous 12 months respectively, for which there was a subsequent payment default during the three months ended March 31, 2021 or at December 31, 2020.

TDRs outstanding totaled \$0.1 million at March 31, 2021, all of which were in nonaccrual status. At December 31, 2020, TDR's outstanding also totaled \$0.1 million and all were in nonaccrual status.

There were no additional commitments to lend to borrowers whose loans have been modified in a TDR at March 31, 2021 or at December 31, 2020.

The following tables provide an age analysis of past due loans, including interest at March 31, 2021 below.

### Note 4 – Members' Equity

#### Preferred Stock

Farm Credit West is authorized to issue 500 million shares of class H preferred stock but had an internal issuance limit set at 425 million shares at March 31, 2021. Purchases may be made by individuals or entities that hold, at the time of their purchase of preferred stock, legal title to, or beneficial interest in, shares of any class of Farm Credit West common stock or participation certificates. Effective November 1, 2020, Farm Credit West elected to suspend new issuances into the preferred stock program. Preferred stock is unprotected and "at-risk." Retirement of preferred stock upon the holder's request is at the sole discretion of the Farm Credit West Board consistent with Farm Credit West Bylaws. Retirements of preferred stock may also require approval by FCA.

The preferred stock dividend rate is a per annum rate which is subject to change each calendar month. For any particular month, the dividend rate shall not exceed 8% nor be less than the federal funds rate. The per annum dividend rate at March 31, 2021 was 0.50%.

#### Common Stock

Farm Credit West issues the following classes of common stock: voting class C common stock, non-voting class F participation certificates, and under certain circumstances, non-voting class A common stock. Such equities are at-risk and are purchased in cash not advanced by Farm Credit West.

Retirement is at the sole discretion of the Board, or by our President when consistent with authority delegated by our Board to the President. Retirements of common stock may also require approval by the FCA. At March 31, 2021, the required common investment was one thousand dollars per voting stockholder. Customers with multiple loans satisfy their equity ownership requirement with a single thousand dollar cash investment.

At March 31, 2021, Farm Credit West had 896,920 shares of class C capital stock outstanding at a par value of \$5 per share, and 104,408 shares of class F capital stock outstanding at a par value of \$5 per share.

#### Capital Adequacy

The FCA sets minimum regulatory capital requirements for Banks and Associations. Effective January 1, 2017, regulatory capital requirements were adopted that replaced the core surplus and total surplus requirements with Common Equity Tier 1, Tier 1 Capital, and Total Capital risk-based capital ratio requirements. In addition, a Tier 1 Leverage ratio and an Unallocated Retained Earnings (URE) and URE Equivalents (UREE) Leverage ratio (Minimum URE Leverage ratio) were implemented. The Permanent Capital Ratio continues to remain in effect; however, the denominator was revised to align with the new capital ratios.

As shown in the following table, Farm Credit West has substantially exceeded each regulatory minimum capital requirement for all periods presented.

Type of capital as % of risk-weighted assets	<i>For the quarter ended</i>			Regulatory Minimum with Buffer
	<b>Mar. 31, 2021</b>	Dec. 31, 2020	Dec. 31, 2019

### Note 5 – Fair Value Measurements

FASB guidance defines fair value as the exchange price that would be received for an asset or paid to transfer a liability in an orderly transaction between market participants in the principal or most advantageous market for the asset or liability. For additional information, see Note 2 to the 2020 Annual Report to Shareholders – Summary of Significant Accounting Policies.

Assets measured at fair value on a recurring basis are summarized below. There were no other assets and no liabilities measured at fair value on a recurring basis for the periods presented.

<i>(in thousands)</i>	Fair Value Measurement Using			Total
	Level 1	Level 2	Level 3	Fair Value
Assets:				
Assets held in trusts for nonqualified benefit plans				
March 31, 2021	\$ 129	\$ —	\$ —	\$ 129

### Valuation Techniques

As more fully discussed in Note 2 to the 2020 Annual Report to Shareholders, the FASB guidance established a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The following represents a brief summary of the valuation technique used by Farm Credit West for assets and liabilities measured at fair value.

**Assets held in Trust:** Assets held in trust for nonqualified benefit plans are related to supplemental retirement plans and are classified within Level 1. These trust assets held by Farm Credit West include cash, money market funds and mutual funds that have quoted net asset values that are observable in the marketplace.

## Notes to Consolidated Financial Statements

**Investment Securities:** Farm Credit West's security portfolio is made up of U.S. Treasuries and classified as Level 2. Where quoted prices are available in an active market, available-for-sale securities would be classified as Level 1. If quoted prices are not available in an active market, the fair value of securities are estimated using pricing models, quoted prices for similar securities received from pricing services or discounted cash flows. Generally, these securities would be classified as Level 2. This would include U.S. Treasury, U.S. agency and certain mortgage-backed and asset-backed securities. Where there is limited activity or less transparency around inputs to the valuation, the securities are classified as Level 3.

**Nonaccrual Loans:** For nonaccrual loans evaluated for impairment under FASB impairment guidance, the fair value is based on the underlying collateral since the loans are collateral-dependent. At March 31, 2021, substantially all of the Association's impaired loans that are recorded at fair value are secured by personal and/or real property. The fair value measurement process uses appraisals performed by independent licensed appraisers and other market-based information, but in many cases it also requires significant input based on management's knowledge of and judgment about current market conditions, specific issues relating to the collateral and other matters. As a result, certain of these loans have fair value measurements that fall within Level 3 of the fair value hierarchy. When the value of the real estate or other collateral, less estimated costs to sell, is less than the principal balance of the loan, a specific reserve is established and loans are reported at fair value.

**Other Property Owned:** Other property owned is generally classified as Level 3 of the fair value hierarchy. The process for measuring the fair value of other property owned involves the use of appraisals or other market-based information. Costs to sell represent transaction costs and are not included as a component of the asset's fair value.

### Note 6 – Income Taxes

Farm Credit West, ACA conducts its business activities through its subsidiaries. Long-term mortgage lending activities are conducted through the Farm Credit West, FLCA subsidiary which is exempt from federal and state income tax. Short- and intermediate-term lending activities are conducted through the Farm Credit West, PCA subsidiary which is subject to tax. As with the PCA subsidiary, the Farm Credit West, ACA holding company is subject to income tax. Farm Credit West operates as a cooperative that qualifies for tax treatment under Subchapter T of the Internal Revenue Code. Accordingly, under specified conditions, Farm Credit West can exclude from taxable income amounts distributed as qualified patronage dividends in the form of cash, stock, or allocated retained earnings. Provisions for income taxes are made only on those taxable earnings that will not be distributed as qualified patronage dividends.

### Note 7 – Employee Benefit Plans

Certain Farm Credit West employees participate in a multi-employer defined benefit retirement plan (Defined Benefit Plan). The Association previously disclosed in its financial statements for the year ended December 31, 2020, that it expects to contribute \$6.3 million to its pension plan in 2021. As of March 31, 2021, no contributions have been made. Farm Credit West's allocated share of expense on the defined benefit retirement plan, included in salaries and employee benefits, was a contra-expense of \$0.1 million for the three months ended March 31, 2021.

Farm Credit West also participates in a non-qualified defined benefit plan (Pension Restoration Plan) that is unfunded. The purpose of this plan is to supplement a participant's benefits under the Defined Benefit Plan to the extent that such benefits are reduced by the limitations imposed by the Internal Revenue Code.

The components of net periodic pension expense for the Pension Restoration Plan included in Farm Credit West's Consolidated Statement of Comprehensive Income follow.

<i>For the three months ended March 31, (in thousands)</i>	<b>2021</b>	2020
Service cost	\$ 102	\$ 92
Interest cost	23	53
Net amortization and deferral	270	177
Net periodic benefit cost	<u>\$ 395</u>	<u>\$ 322</u>

The components of net period benefit cost are included in the line item "salaries and employee benefits" in the income statement. Farm Credit West has continued to account for the service cost component in this line item due to immateriality.

### Note 8 – Subsequent Events

The Association has evaluated subsequent events through May 5, 2021, which is the date the financial statements were issued. No subsequent event items met the criteria for disclosure.
