Enter your name and choose your audio and video settings

Once you've launched Microsoft Teams, you'll have to enter your name and choose your audio and video settings. You can toggle off your microphone or webcam. You also can choose a different device for audio, if needed. Once you're ready, you can click the purple Join now button.

Enter the meeting lobby

Finally, you'll be put into the meeting lobby. Once you're in the lobby, the meeting organizer will be notified that you're there, and you'll be admitted in. If no one has admitted you to the meeting within 15 minutes of joining, you'll be kicked out from the lobby, and you'll need to join again. It's also worth noting that you won't have full access to some of the features in the Teams meeting.
